Auction Period Starts</p> <p>The auction period on a deal begins for a side when either partner looks at the face of his cards.</p> <p>B. The First Call</p> <p>The player designated by the board as dealer makes the first call.</p> <p>C. Successive Calls</p> <p>The player to dealer's left makes the second call, and thereafter each player calls in turn in a clockwise rotation.</p> <p>D. Cards from Wrong Board</p> <p>1. A call is cancelled if it is made by a player on cards that he has picked up from a wrong board.</p> <p>2. After looking at the correct hand the offender calls again and the auction continues normally from that point. If offender's LHO has called over the cancelled call the Director shall award artificial adjusted scores when offender's substituted call differs* from his cancelled call (offender's LHO must repeat the previous call) or if the offender's partner has subsequently called over the cancelled call.</p> <p>3. If the offender subsequently repeats his call on the board from which he mistakenly drew his cards the Director may allow that board to be played normally, but</p>

<p>normally, but the Director shall assign artificial adjusted scores (see Law 90) when offender's call differs in any way from his original cancelled call.</p> <p>Law 17D - see Law 90 for penalty</p> <p>Law 17E - The auction period ends when all four players pass or when after three passes in rotation have followed any call the opening lead is faced (when a pass out of rotation has been accepted, see Law 34).</p> <p>Law 34 - When a call has been followed by three passes, the auction does not end when one of those passes was out of rotation, thereby depriving a player of his right to call at that turn. The auction reverts to the player who missed his turn. All subsequent passes are cancelled, and the auction proceeds as though there had been no irregularity.</p> <p>Law 26 first footnote - A call repeated with a much different meaning shall be deemed a different call.</p> <p>Law 18A - A bid names a number of odd tricks, from one to seven, and a denomination. (Pass, double and redouble are calls but not bids.)</p>	<p>the Director shall award artificial adjusted scores when offender's call differs* from his original cancelled call.</p> <p>4. A procedural penalty (Law 90) may be assessed in addition to rectifications under 2 and 3 above.</p> <p>E. End of Auction Period</p> <p>1. The auction period ends when all four players pass (but see Law 25) or when subsequent to the last bid there have been three consecutive passes in rotation and the opening lead is faced. (See Law 22.)</p> <p>2. When a call has been followed by three passes the auction does not end if one of those passes was out of rotation, depriving a player of his right to call at that turn. When this occurs the auction reverts to the player who missed his turn, all subsequent passes are cancelled and the auction proceeds normally. Law 16D applies to the cancelled calls**.</p> <p>3. If the Director judges that a player has made a call as the result of misinformation given to him by an opponent see Law 21.</p> <p>* For example, a substituted call differs if its meaning is much different or if it is psychic.</p> <p>** A player who has called at RHO's turn is an offender.</p> <p>LAW 18 - BIDS</p> <p>A. Proper Form</p> <p>A bid designates a number of odd tricks (tricks in excess of six), from one to seven, and a denomination. (Pass, double and redouble are calls but not bids.)</p> <p>B. To Supersede a Bid</p>
---	---

<p>Law 18B - A bid supersedes a previous bid if it names either the same number of odd tricks in a higher-ranking denomination or a greater number of odd tricks in any denomination.</p>	<p>A bid supersedes a previous bid if it designates either the same number of odd tricks in a higher-ranking denomination or a greater number of odd tricks in any denomination.</p>
